SECTION 3 HAZARDS IDENTIFICATION

Ingestion: No hazard in normal industrial use. Ingestion of large amount may cause systemic ammonia poisoning and nitrate poisoning.
Inhalation: No hazard under normal conditions.
Eye Contact: May be aggravating to eyes.
Skin Absorption: Not absorbed through skin.
Skin Contact: May be aggravating to skin.
Effects of Overdose: Ingestion of large amounts may cause dizziness, abdominal cramps, vomiting, and diarrhea, discomfort to skin and eyes.

SECTION 4 FIRST AID MEASURES

Ingestion: For ingestion of large amounts, give 2-3 glasses of water and induce vomiting. Seek medical attention if condition persists.
Inhalation: If exposed to thermal decomposition gases, evacuate the person from area and, if necessary, give artificial resuscitation. Keep person at rest and call a physician.
Eyes: Flush eyes with fresh running water for 15 minutes. If condition persists, call a physician.
Skin: Wash skin with soap and water. Seek medical attention if condition persists.

SECTION 5 FIRE FIGHTING MEASURES

Extinguishing Media: Non-flammable liquid. Use media suitable to extinguish source of fire.
Special Fire Fighting Procedures: None in liquid state.
Unusual Fire and Explosion Hazards: None in liquid state. Organic and oxidizable materials can sensitize dry Ammonium Nitrate to a readily explodable state; can detonate if heated under confinement with high pressure.

SECTION 6 ACCIDENTAL RELEASE MEASURES

Environmental Precautions: Low toxicity for fish. Do not contaminate any waterway or any body of water by direct application, cleaning of equipment, or disposal.
Steps to be taken in case material is released or spilled: Dike area and maximize recovery. Pump into tank or absorb in diatomaceous earth. Sweep up and place into containers for recycle or disposal. Wash area with water. Prevent entry into sewer or watercourses.

SECTION 7 HANDLING AND STORAGE

Precautions to be taken in handling and storing: Temperatures should be kept above 32°F to keep solution liquid and pumpable. Do not expose to fire. Store in a well ventilated area. DO NOT ALLOW TO DRY.

SECTION 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Ventilation Protection: Adequate ventilation.
Respiratory Protection: None required under normal conditions.
Protective Clothing: Normal work clothing and impervious gloves.
Eye Protection: Safety glasses with side shields or chemical splash-proof goggles.
Other: Eyewash fountain and safety shower in area.
